Welcome to the student survey of the U-Multirank project!

Your opinion is important.

The U-Multirank project which is undertaken by the CHERPA network has developed a multi-dimensional global university ranking which was first published in May 2014. The results of the first phase can be found at umultirank.org.

One of the major aims of this ranking is to give information to future students helping them to make an informed choice on their university/higher education institution on an international scale.

Students' judgements on their own institution and programme play an important role in informing prospective students. Therefore we ask for your opinion on several aspects on the conditions and quality of your studies.

Taking part in the survey is optional and anonymous. The password for the questionnaire is derived randomly; there is no connection to your person. The necessary information for accessing the questionnaire was distributed by your university. Data is used only for the U-Multirank project.

Filling in the questionnaire will take about twenty minutes time.

Thank you very much!
